The valuation of this prespecty by the aways tifficity of the Commess wealth shows that the Unlining alone are worth \$50,000; the assessment per acre is put at \$24. Such property requires more abovat a continuous to the public accommodation than individuals are able or willing to risk, and the fact that so many will be interested in the encoast of the Springs, and in building ground thems, will probably done in the continuous property in the present estimate. A subscriber will, in the worst event, get a lot of the almost universal discussions in New York; for the sum of the dellars. He will get a lot on which he can build, at the very fundation of health; he may reside out if for the summer season only, or for the year. The inducements to build will be irresistible; and the fact of such buildings being served will immessurably enhance the value of the Springs and of the lots. There is no reason why a city of magnitude should not rise up and flourish at this place. The Rapophannock giver is navigable to the spot. A very little energy would always keep the locks in repair. The Alexandria and Lynchburg railroad crosses the river about 5 or a mice below this land. Coal, at a cheep rate, may be unloaded from the cars into the bests. Indefinite steam power may thus the commanded at will; and the facility of transportation gives the same advantages which Lowell has for unlimited bosiness. The railroad, already which Lowell has for unlimited bosiness. The railroad, already within 6 miles will soon extend to New Orleans, whose inhabitants may thes reach those Springs in three days. As healthy a spot as any in Viginia—in an abundant region—with all these facilities why should not a city thrive and prosper here? At all events, around these health; giving waters, already on catenaively and beaut
